Subject: Re: MOU for landfill

Tony, I like your idea, however I do think before the commission approves this it should be put in front of Upton, Newcastle and WCSWD so they can change, correct any of the parts that pertain to them. The last I talked to Cyndi she shared a discussion the board of WCSWD had at their last meeting about staying as their own district and the new district being the rest of the county. Also at one time I thought Upton would not have to have a transfer station just a garbage truck that would make a trip a day but I might have misunderstood that. I am forwarding an email I got from the department of revenue.

Thanks Bill

Hello,

Would you take a hard look at the MOU I brought yesterday and see if there are any concerns you have? I would like to have this done in the next few days so I can present to the various entities and start putting together numbers and a presentation for our next meeting. I will be a fairly lengthy process, so please don't wait until next week for your suggestions.

Marty, I gave you or William the copy that had the changes you suggested. Would you resubmit them to me?

William, send me a confirmation of receipt so I know I am using the right email for you. Also, please check my language to make sure that we are not unduly obligating ourselves to unforeseen problems or liabilities.

Thanks,

Tony
