Subject: minutes for 3/3

Hey you two,

I am not going to be able to do the minutes until this weekend. I have had more problems arise with the election, the audit and the issues with the grants. So you will not be getting a draft until the meeting on Monday maybe late. I will send the draft to Bob and see if he can hold off until you look them over on Tuesday. I am trying my best to please everyone, but the only I need to worry about is me and the order I do things in. I am sorry if this does not work but this is how it is going to be until the election and the budget are done. I believe you should be able to trust me with the minutes and if they are a little off I am still learning. I have many hats to wear and this election is doing more harm than good to me. I am finding things that are not done right from the past clerk and it is very irritating that some commissioner's looked past the issues and didn't listen to other commissioners. I am not going to apologize for stepping into a mess and then everyone expecting me to do what they want.

So please bear with me and be patient. I am doing my best but some days it seems that is not good enough. I feel like I am going backwards and not forwards.

I am making a decision for my sanity and peace of mind.

Thank you for letting me vent.

Cheryl
