

LEPC Minutes for October 27, 2021

Meeting called to order: 1900
Via in-person and Zoom

APPROVAL OF THE AGENDA:

- Motion: David Scott
- Second: Sam Keller

APPROVAL OF MINUTES: Minutes for the September 29, 2021 will submit and review for next meeting.

- Additions/Corrections:
- Motion: Second:

OLD BUSINESS:

1. Corona Virus (Covid-19) Update
 - a. Discuss cases. (Weston County) (as of 10.26.2021)
 - b. Weston County Hospital reported (N/A)
 - Total Laboratory Confirmed cases: 781 up from 674 at last report
 - Total New cases Since Last Update: 7 up from 3 at last report
 - Total Laboratory Confirmed Active Cases: 40 up from 19 at last report
 - Total Laboratory Confirmed Cases Recovered: 732 up from 647 at last report
 - Total Laboratory Confirmed Cases in the past 14 days: 58 up from 25 at last report
 - Total Probable Cases: 266 up from 217 at last report
 - Total Probable Cases Recovered: 260 up from 201 at last report
 - Total lab Confirmed and Probable Cases: 1,047 up from 891 at last report
 - Total Deaths: 9 up from 8 at last report
2. WyoLink Tower Update
 - a. City engineer is working with attorney and landowner on access agreements

NEW BUSINESS:

1. Dispatch Communications
 - a. Meeting with the commissioners on October 19th. Upton PD, Newcastle PD and Weston County Sheriff met to discuss main concerns and how to work out these issues. Once the group can get resolved will start working with the other groups within the meetings. Will give weekly updates to each board members.
2. HMEP Grant
 - a. Looking to schedule a trainer. Do have some Blue Cell training available
3. Reporting from water districts to the LEPC. Tier II reports and spills or releases that would fall into the EPA's Lists of Lists. Will look to get the board members contact to add to the mailings. Discussed some of the EPA's reporting with Greg Stumpff with the City of Newcastle. Greg was able to join the meeting via Zoom.
 - a. In order to be required to submit a Tier II Report, the facility only has to meet one criteria:
 - i. If any facility stores hazardous chemicals that meet or exceed the chemical thresholds at any one time. (A chemical is considered hazardous if the facility is required to maintain an SDS under OSHA.) Chlorine (CAS # 7782-50-5) is considered an EHS, which is an "extremely hazardous substance". You know this because when looking at the list of lists, look under section 302 (EHS) TPQ. If there is a number here, it is considered an extremely hazardous substance. In the case of Chlorine, if the facility stores more than 100 lbs, they are required to submit a Tier II report. If it wasn't an extremely hazardous substance, it would be considered a hazardous chemical and would only require a Tier II submission in excess of 10,000 lbs. Additionally, if a release to the environment occurred in excess of 10 lbs, the facility would be required to report the release under Section 304 (EPCRA) and CERCLA.

TRAINING:

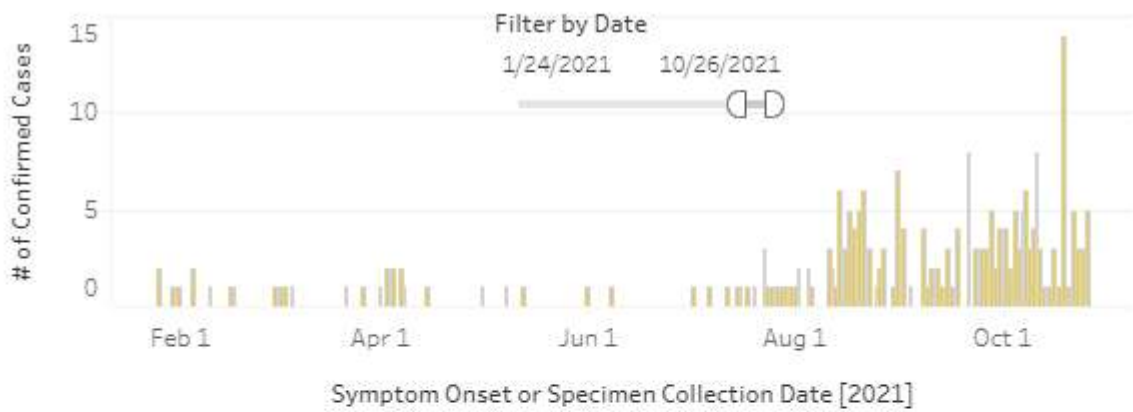

1. Gilbert update sent.

Next LEPC Meeting Scheduled for November 17, 2021 due to the Thanksgiving Holiday.

ADJOURNMENT: 1920 P.M. Motion: Chris Kenny 2nd: Sam Keller
